## IAN HYLAND

### FOREWORD

---

As we launch this most important Index, which details the focus and future of Irish business investment across the United States, I am reminded of Warren Buffet's words: "Someone's sitting in the shade today because someone planted a tree a long time ago." Through incremental steps and small roots, Ireland's footprint in the US has continued to progress in line with the successes of our best indigenous companies. While the seismic impact of US investment in Ireland is well-articulated, the true symbiosis in the economic relationship between our two countries can be often overlooked. The Ireland INC Index, in association with our partners KPMG, and working with Irish and US state agencies, aims to address this by highlighting the true scale and success of the investment that Ireland's top companies have made across the United States.

The latest figures from SelectUSA and the US Department of Commerce, released in February, put Ireland as the eighth largest source of FDI in the United States in 2016, a truly remarkable feat for a nation of our size.

Irish businesses have invested well over \$85bn in the US already and as the Index outlines the trajectory of these Irish companies, it is clear that this figure will only rise further.

Ireland INC continues to take seriously its role of telling this story and providing platforms to further critical dialogue. Ireland remains the only country to host a day at the New York Stock Exchange, with Ireland Day celebrating its eighth instalment in 2018. The Ireland INC Index is another important tool that will become a pillar of the business community in identifying the companies leading the way in the United States and affirming Ireland's strong footprint in this regard.

I look forward to working with our partners KPMG, our friends in the Irish and US governments and Irish business to continue building this Index providing a vital source of information and guidance to the wider market. I welcome your engagement as leaders of Irish business in this regard and congratulate all of our indexed companies on their ongoing successes.

## SHAUN MURPHY

### FOREWORD

As this report highlights, the economic relationship between the United States and Ireland is one of deep mutual benefit. Irish investment in the US has gone from strength to strength over several decades. Many of Ireland's leading companies have invested in the United States creating high value employment in many areas. The valuable multiplier effect of this commitment is often reinforced, for example, by additional research and development investment. Meanwhile, Ireland provides US businesses with a gateway to the European Union and guaranteed long-term access to a market of almost 500 million customers.

In every case, the opportunities created by this relationship are highly significant. For Irish companies investing in jobs and other economic activity in the United States, it means proving their capabilities in one of the most discerning and demanding markets in the world. For US business using Ireland as a base to trade successfully with the European market, Ireland provides a stable, pro-business environment committed to supporting their continued success on a global basis. I hope that this report will provide policy makers and others with valuable insights into the benefits of our enduring business and wider relationships and the jobs sustained on both sides of the Atlantic as a result.

Managing Partner, KPMG in Ireland

## FDI IN THE USA

**“The North American economies of the US and Canada are in fine shape. Excess supply in their labour markets is enabling firms to increase hiring; larger workforces are boosting consumer spending; and rising private consumption is encouraging firms to invest.”**

The Economist Intelligence Unit, EIU global forecast, May 2018

The US economy had a positive start to Q1 in 2018, with tax cuts and fiscal stimulus promoting firm inflation and growth expectations and pushing the stock market up. However 9 out of 11 equity sectors representing key areas of the US economy closed Q1 in negative territory after uncertainty stimulated volatility and drove prices down. Despite elevated valuations, Technology and Consumer Discretionary were the leaders after both enjoying a positive quarter.

### 11 Sectors of the US Stock Market

Financials / Utilities / Consumer Discretionary / Consumer Staples (incl Food & Beverage) / Energy / Healthcare / Industrials (incl Construction) / Technology / Telecom / Materials / Real Estate

The USA remains an attractive destination for Irish FDI for many reasons, including its large consumer base, common language and innovative pro-business environment.

The USA is the largest recipient of FDI in the world:

**“In 2016, the foreign direct investment position, or the stock of foreign investment, in the United States was \$3.7 trillion on a historical-cost basis, \$6.6 trillion on a market value basis or \$4.4 trillion on a current-cost basis.”**

Office of the Chief Economist, US Dept of Commerce

From figures released in 2017 by the Office of the Chief Economist and SelectUSA, Ireland was the eighth largest source of FDI to the US in 2016, and ninth overall in the period from 2010-2016 (see graph), with advanced economies, led by the United Kingdom, Japan, Canada and Germany, leading the pack.

FDI Position In the U.S. - Top 10 Investor Countries by Ultimate Beneficial Owner (UBO), 2016

Source: Department of Commerce, Bureau of Economic Analysis. Note: Ultimate Beneficial Owner (UBO) measure of investment attributes FDI ownership to the country of the highest level decision maker in a company's ownership chain. The measurement removes data distortions that may arise from the FDI into the United States that passes through intermediary countries.

FDI In the U.S. - Financial Inflow Transactions w/o current-cost adjustment: Top 10 Investor Countries 2010-2016

Source: U.S. Bureau of Economic Analysis. \*Includes "United Kingdom, Caribbean", comprised of British Virgin Islands, Cayman Islands, Montserrat, and Turks and Caicos Islands.

Acquisition is the most popular means of investment:

**“Greenfield investment by foreign entities—defined as a foreign investment either to establish a new U.S. business or to expand an existing foreign-owned US business by adding a new facility—totaled \$7.7 billion. Expenditures on establishing new businesses totaled \$5.6 billion while spending on expansions of existing US affiliates was almost \$2.2 billion. Foreign investors spent \$365.7 billion in acquiring US companies in the same year [2016].”**

# TOP IRISH COMPANIES IN THE US, BY NUMBERS EMPLOYED

## 01

**CRH  
(OLDCASTLE)**  
**40,000**  
EMPLOYEES  
IN THE US

Oldcastle is the North American arm of CRH plc., one of the world's leading building products and materials companies based in Dublin, Ireland. It is the largest building materials company in North America with more than 1,700 operations in 50 US states and 6 Canadian provinces.

CRH's Americas Material business has operations in 43 states, whilst its Americas Products business is in 38 states across the US. In 2017, its US businesses generated €14.64 billion in revenues, or 52% of group revenues.

CRH plc was formed through a merger in 1970 of two leading Irish public companies, Cement Limited (established in 1936) and Roadstone, Limited (1949). Group Chief Executive Albert Manifold has been leading the business since January 2014, after joining in 1998 as Finance Director for CRH's Europe Materials division where he helped to build CRH's position in Eastern Europe.

Today, CRH is one of the world's leading building materials companies, with a business that spans 32 countries and which serves all segments of construction industry demand. CRH subsidiary companies employ over 85,000 people at around 3,600 locations around the world and generated sales of €27.6 billion in 2017.

In 1978 CRH made its first move into the United States with the acquisition of Amcor, a concrete products company based in Utah. The foundation of what is now the Americas Materials Division commenced in 1985 with

the acquisition of Callanan Industries, an aggregates and asphalt company in Upstate New York.

The 1990s saw the establishment of a new growth area for the Americas Materials Division with the acquisition of Staker, a major quarry and blacktop business in Utah and the mountain states.

In 1996 the purchase of Tilcon for \$323 million was CRH's largest acquisition at that time, establishing a unique regional position in materials in the Northeastern US. The acquisition of Allied Building Products gave CRH a fifth core business in the US and a first presence in distribution.

The acquisition in 2006 of Ashland Paving And Construction (APAC) for US\$1.1 billion (net of disposals), was then the largest single transaction completed by the Group and APAC brought into the fold 9,700 employees, across 93 aggregate production facilities spread over 14 Southern and Midwestern states. In September last year CRH confirmed the acquisition of Ash Grove cement business would go ahead, paying \$3.5bn for the fifth-largest US cement manufacturer with eight cement plants across eight US states.

A Fortune 500 company, CRH is a constituent member of the FTSE 100 index, the EURO STOXX 50 index, the ISEQ 20 and the Dow Jones Sustainability Index (DJSI) Europe. CRH's American Depositary Shares are listed on the New York Stock Exchange (NYSE).

Ardagh is a global leader in glass and metal packaging, with 39 sites across the US employing over 7,000, out of a global staff of over 23,500 in 22 countries. Founded in 1932 as the Irish Glass Bottle Company in Dublin, the company expanded through a series of acquisitions after Paul Coulson, the current Chairman and CEO, acquired an initial stake in the company in 1998.

The company launched an initial public offering (IPO) in March 2017 on the New York Stock Exchange, raising just over \$300 million. Ardagh currently operates its glass and metals packaging businesses across 17 US states, with the highest concentrations of operations clustered in Illinois, California and Indiana.

02

**ARDAGH****7,000**EMPLOYEES  
IN THE US

Greencore Group plc is a leading international convenience food company. It was established by the Irish government in 1991 when they privatised Irish Sugar, and is today the world's largest sandwich manufacturer. Headed up by Patrick Coveney and listed on the London Stock Exchange, it is part of the FTSE 250 Index. Greencore's US headquarters is in Chicago, with numerous further operations in Illinois, as well as California, Virginia, Florida,

Minnesota, Rhode Island, Utah, Washington and Ohio. This year Mr Coveney pledged to spend half his time in the US business, in order to "take a direct role in the strategic, organisational and commercial leadership of Greencore US", with COO Chuck Metzger, assuming day-to-day responsibility of the US business and reporting directly to Mr Coveney.

03

**GREENCORE****6,000**EMPLOYEES  
IN THE US

Having commenced operation from a green field site in Listowel, Co. Kerry in 1972, the Kerry organisation has evolved from a private dairy processor, to a dairy co-operative, to its current incarnation as a public company with annualised sales of approximately €6.4 billion, and operations established in 27 countries across five continents. Kerry began exporting dairy ingredients to the US in 1972 and opened its first overseas food ingredients manufacturing plant in Jackson, Wisconsin in 1987. In 1988, Beatreme, the premier speciality food ingredient supplier in the US market was acquired by Kerry for US\$130m. In the US market Kerry further consolidated its position in 1991 through the acquisition of Dairyland Products Inc. based in Minnesota. In November 1994 Kerry announced a major

expansion of its international food ingredients business through the US\$402m acquisition of DCA Food Industries and Margetts Foods.

The Group has invested considerable resources in the development of leading positions in both North American and South American markets, with numerous acquisitions almost every year since 2000. Today, Kerry's US Taste & Nutrition business, headquartered in Beloit, Wisconsin, operates 40 manufacturing sites throughout the US, employing approximately 5,000 people. In 2017, revenues across the Americas amounted to 42% of the group's €6.4 billion sales. Their latest results, reported in May 2018, saw 2.9% volume growth across the Americas region, with Meat, Snacks, and Beverage all performing strongly.

# 05

**ICON**  
**4,600**  
 EMPLOYEES  
 IN THE US

Since its foundation in Dublin in 1990, Icon has grown to become a global leader in clinical research and provider of outsourced development services to the pharmaceutical, biotechnology and medical device industries. From a small team of 5 people in 1990, ICON has grown to employ over 13,380 people

across 97 locations in 38 countries, through a mixture of organic growth and strategic acquisitions. ICON opened its first US office in Philadelphia in 1992, and began trading on the Nasdaq exchange in 1998. Icon now employs 4,600 in the US.

# 06

**GLANBIA**  
**3,600**  
 EMPLOYEES  
 IN THE US

One of the world’s top nutrition companies, Glanbia plc was formed in 1997 out of the merger of Avonmore Foods plc and Waterford Foods plc, and today employs over 6,600 people across 32 countries. Glanbia entered into the US with the acquisition of a number of small cheese plants in the 1980s and 1990s, which form the basis of its market leading business there.

The United States now boasts the most Glanbia facilities of any country, with 12 manufacturing operations and corporate

offices across 7 states (Idaho, New Mexico, Illinois, South Dakota, Florida, Missouri and California). Glanbia products are sold or distributed in over 130 countries and brought in revenue of €2.4 billion in 2017. Recent investments in the US include the acquisition of California based companies thinkThin in 2015 and Amazing Grass in 2017. Glanbia also announced in 2017 its intention to establish a Joint Venture partnership to build, supply and operate a new large-scale cheese and whey production facility in Michigan.

# 07

**KINGSPAN**  
**1,800**  
 EMPLOYEES  
 IN THE US

Kingspan, the leading global manufacturer of insulation panels for the construction industry, was founded as a small family construction business over 40 years ago. With a relatively low level of penetration of insulated panels in the US market, there is huge opportunity for growth as reduction of carbon footprint has become a pressing issue and to this end, Kingspan, under CEO Gene Murtagh, have invested in organic

growth and acquisitions in the US market, bringing their employee numbers up to 1,800. The Americas represented 20% of Kingspan’s business in 2017, in a record period for the group in which revenue rose by 18.0% to €3.7bn, and trading profit grew by 10.7% to €377.5m. High profile projects in 2017 included facades on the Nike headquarters in Oregon and an Aloft Hotel in Texas.

Fashion retailer Primark launched its first US store in Boston in September 2015, and took the US market by storm with its bargain-priced fast fashion, homewares and novelty goods. There are now stores in Philadelphia, New Jersey, Massachusetts, New York and Connecticut. Their ninth US store is due to open in Kings Plaza Shopping Center in

Brooklyn, New York, with a 57,900 sq ft shop, featuring 56 fitting rooms and 42 registers, access to free Wi-Fi and four customer recharge seating areas. Primark operates over 350 stores in 11 countries – the UK, the Republic of Ireland, Spain, Portugal, Germany, the Netherlands, Belgium, Austria, France, Italy and the US.

# SECTORAL INSIGHTS

The top sectors, by number of FDI projects, in which Irish firms have invested into the US according to SelectUSA's most recent figures are:

## Business Services

"The business services industry's outlook is a function of the health of the broader economy, which is currently quite favorable. A rise in GDP, an improving employment scenario, inflation approaching 2%, easing of the US dollar and momentum in oil prices are all signs of improvement in the US economy, which in turn is positive for the business services industry. The Trump administration's business-friendly policies, including tax cuts and the repeal of regulations, are additional tailwinds."

NASDAQ Business Services Industry Outlook - May 2018

## Food

As Lidl and Aldi prepare to enter the US market, grocery margins will be razor sharp and discounts deep. Internet grocery shopping also continues to gain in popularity.

## Software and IT

"The information technology (IT) sector is poised for another strong year, 5.0 percent growth projected. The Computing Technology Industry Association's (CompTIA) IT Industry Business Confidence Index notched one of its highest ratings ever heading into the first quarter of 2018. Executives cite robust customer demand and the uptake of emerging product and service categories as key contributors to the positive sentiment. Revenue growth should follow suit. CompTIA's consensus forecast projects growth of 5.0 percent across the global tech sector in 2018; and, if everything falls into place, the upside of the forecast could push growth into the 7 percent-plus range. According to IDC, global information technology spending will top \$4.8 trillion in 2018, with the US accounting for approximately \$1.5 trillion of the market."

Industry Outlook 2018, CompTIA

## Communications

A new era in mobile begins with the rollout of 5G, which will be the foundation for new developments in internet of things (IoT), autonomous vehicles and mobile media.

## Financial Services

"Financial markets in the United States are the largest and most liquid in the world. In 2016, Finance and Insurance represented 7.3 percent (or \$1.4 trillion) of US gross domestic product. Leadership in this large, high-growth sector translates into substantial economic activity and direct and indirect job creation in the United States."

SelectUSA

## Pharmaceuticals

"Pharmaceuticals had the largest stock of FDI among the manufacturing sectors, accounting for nearly 32.5 percent of manufacturing FDI stock in 2016. FDI in this industry has increased considerably over the latest available five-year period, from \$89 billion in 2010 to \$498 billion in 2016, an average increase of 33 percent a year."

Office of the Chief Economist, US Dept of Commerce.

**46%** of the US population are under 35

### FMCG

With 46% of the US population aged under 35, and the Gen Z population over 26% of the total figure, rising to 40% by 2020, the consumer market in the US is youthful. The younger consumer is not brand loyal. Gen Z is the first mobile-first generation and has a shorter attention span than their predecessors; if you want their attention, you have 8 seconds to get it.

# IRELAND INC IRISH COMPANIES IN THE US

## **3D4MEDICAL**

3D4Medical developed a suite of medical apps designed to give students and clinical institutions access to detailed anatomical models, with their flagship product, Complete Anatomy, which was used onstage to premiere Apple's iPad Pro in 2015. Founder John Moore sold a minority stake in 3D4Medical to Malin plc. for \$16.4Million in 2015. The company is thought to be valued at between \$70m and \$100m, based on a number of takeover approaches over the past two years.

## **AB PACKAGING**

The paper bag and flexible packaging producer founded by CEO Dermot Brady 30 years ago makes paper shopping bags and tissue for commercial retailers such as Primark, T.J. Maxx, Nike, Vodafone, and Tommy Hilfiger. As one of AB Group's largest customers, Primark's entry into the US market led the way, and made it imperative to follow. AB opened its first US plant in Newark in 2016.

## **ACTAVO**

Worldwide Actavo has 6,000 employees in 100 locations, with their move into the Caribbean, laying fibre for Digicel, bringing the company closer to the US, and the US into their line of vision. Actavo USA has since worked with 6 million homes and businesses with over 60,000 miles of fibre optic cable installed coast to coast.

## **ADAPT PHARMA**

Adapt Pharma is a privately-held company founded by serial bio-tech investor Seamus Mulligan. Adapt Pharma markets the drug the nasal spray Narcan® which is used for the

emergency treatment of known or suspected opioid overdose. Adapt Pharma's company headquarters is in Dublin, Ireland with U.S. headquarters in Radnor, Pennsylvania.

## **AEROGEN**

Aerogen's global headquarters are in Galway, with offices in the US, Germany, China and the UAE. The company has 30 people working permanently overseas, The US accounts for about half its business and in 2016 added a Chicago office.

## **ALLERGY STANDARDS**

Founded by Dr John McKeon, Allergy Standards is an independent global certification company which uses the expertise of their team to develop independent standards for testing a wide range of products to determine their relative suitability for asthmatics and individuals with allergies. Allergy Standards Ltd was established in 2000 and has offices in Dublin, New York and Seoul, Korea.

## **ALMAC**

Sir Allen McClay formed Almac in 2002. It was born out of Galen Holdings Plc, which he had founded as Galen Ltd in 1968, and floated on the stock market in 1997, becoming Northern Ireland's first £1bn company. The Almac Group bought the API Manufacturing and Chemical Development, Clinical Trial Supply and Clinical Technologies businesses from Galen. Globally Almac, a major player in drug development, now employs close to 5,000 people, of which 1,650 are based in the US, around five locations : Durham, NC, San Francisco, CA, and Audubon, Souderton, and Lansdale, PA.

### AMCS

Limerick-based AMCS was founded by CEO Jimmy Martin. AMCS is the leading supplier of integrated software and vehicle technology for the waste, recycling and material resources industries. AMCS is headquartered in Ireland with offices in the UK, Denmark, the Netherlands and Pennsylvania in the US.

### APPLEGREEN

Petrogas Group US INC T/A Applegreen is a 100% owned subsidiary of Applegreen plc, a publicly quoted company listed on the Irish and UK stock markets. It currently operates four sites in the US, with retail concession stores at its US service stations on Long Island featuring a selection of food and beverage items, automotive accessories and supplies.

### ARDAGH

Ardagh is a global leader in glass and metal packaging, with 39 sites across the US employing over 7,000, out of a global staff of over 23,500 in 22 countries. Founded in 1932 as the Irish Glass Bottle Company in Dublin, the company expanded through a series of acquisitions after Paul Coulson, the current Chairman and CEO, acquired an initial stake in the company in 1998.

### ARDMORE SHIPPING

Founded in 2010, by Anthony Gurnee, Ardmore Shipping owns and operates product and chemical tankers worldwide. It has its ship management and administration activities located in Cork, and offices worldwide in Bermuda, Singapore, Hong Kong and Houston, Texas. Ardmore Shipping IPO-ed on the New York Stock Exchange in 2013 raising \$140m at \$14 per share.

### ARRALIS

Co-founded by Limerick man CEO Barry Lunn and CTO Mike Gleaves, Arralis develops satellite communications and radar technology and works with high profile clients including the European Space Agency. Founded in 2013, Arralis is headquartered at the University of Limerick campus with a design centre in Belfast. In 2016 they opened new offices in China and the USA, and in 2017 they raised €50 million funding from a group of anonymous Asian private equity partners. Arralis also operates design facilities in Manchester and Hong Kong, a sales office in Beijing and a factory in Wuhu city in China, and employs more than 50 people around the world.

### ASAVIE

IoT firm Asavie Technologies' flagship platform is the award-winning PassBridge® which powers on-demand services for the secure and intelligent distribution of data to connected devices for clients such as AT&T, Eir, Three, Telefonica and Vodafone. Founded by Ralph Shaw in 2004, the company is headquartered in Dublin with offices in the UK, North America, Spain and Malaysia.

### ATA GROUP

The Cavan-based precision engineering toolmaker operates in 60 markets, with a network of over 1,400 distributors and manufacturing centres in Ireland, the UK and the US. The business has been built up over 50 years, serving aerospace, automotive, oil and gas markets, shipbuilding and metal fabrication. Former Smurfit executive Peter Cosgrove led an acquisition of the company in 2008, seeing its potential for growth. The acquisition of its biggest competitor SGS Tool (Cleveland, Ohio) in December 2012 put the company into a world leadership position and it now employs over 200 people worldwide.

### AXONISTA

Founded in 2010 by Clare McHugh and Daragh Ward, Axonista builds software to bring interactivity to TV and video. Based in Dublin and NYC, Axonista's clients include Apple TV, TV3, QVC, MTV and ESPN.

**BANK OF IRELAND**

Bank of Ireland Group operations in the USA incorporate Global Markets operations in Connecticut and Corporate Banking offices in Connecticut, New York and Chicago. Bank of Ireland Corporate Banking and Treasury has offices in Chicago and New York City and a branch in Stamford, Connecticut. Bank of Ireland's US Leveraged Acquisition Finance group was formed in 2002. Bank of Ireland obtained a US Banking License in July 2006 and commenced operations as a US branch in Stamford later that year. In addition, Bank of Ireland established representative offices in New York City and Chicago in 2008.

**BHSL HYDRO**

The Limerick agri-tech company's US operation is headed up by Ken Le Faive, President, North America. The company, which pioneered a method for using poultry manure as an energy source, entered the US market after agreeing a €3 million pilot project with the state of Maryland. Maryland is providing \$1 million in funding for the project. BHSL, which is providing the remaining €2 million in funding for the new project, was established by brothers Jack and Declan O'Connor in 2009. It employs 28 people at its headquarters in Ballagh.

**BIG RED BARN**

Mayo company Big Red Barn began life providing a sturdier alternative to marquees for events, before moving into modular homes solutions. In 2018 Big Red Barn entered into a public private partnership with the City of Warwick Housing Authority which will fund a pilot building on a site in Warwick, Rhode Island, supplying a modular home for a low income family, to demonstrate the ability to provide cost-effective housing for the city.

**BIMEDA**

A global leader in animal health, Bimeda has established markets in more than 70 countries worldwide and has R&D, manufacturing and distribution capabilities across Europe, North America, South America, Africa, Asia and Australia. Bimeda employs almost 800 employees worldwide with US headquarters are based in Oakbrook Terrace, IL. The Bimeda US product portfolio focuses on five key categories: ecto- and endo-parasiticides, water soluble antimicrobial, injectables and nutritional products.

**BIO-MEDICAL RESEARCH**

Bio-Medical Research have been creating ground-breaking EMS (Electrical Muscle Stimulation) technology for over 50 years. Galway, 'The City of the Tribes' is home to Bio-Medical Research, with offices and employees located in the US, France, Hong Kong, UK and Singapore.

**BLUEFACE / STAR2STAR**

In January 2018, Irish Unified Communications as a Service (UCaaS) provider Blueface merged with Star2Star forming a new company - StarBlue INC - in order to form one of the world's top five Service UCaaS businesses. Sarasota, Florida based, Star2Star is a globally recognized market-leader in the North America Unified Communications Market. The combined company now employs well over 500 people across the globe.

**COGS & MARVEL**

The Irish brand experience and creative events agency opened a US office in Silicon Valley after winning business with Dublin-based multinational tech firms. Formerly known as The Green Light Events, the business founded by Róisín Callaghan and Jane Gallagher in 2006, underwent a major rebrand to become Cogs & Marvel in 2017. It also operates an in-house travel company to manage travel and accommodation requirements for customers, who include Google, Facebook, LinkedIn, Twitter, Dropbox, Mastercard, Fáilte Ireland, Slack and Uber. The new US office is headed up by co-founder Róisín Callaghan, who relocated permanently to the US, with a staff of 15 in the San Francisco office.

**COMPLIANCE & RISKS**

The end-to-end global regulatory solutions provider, headquartered in Cork, counts 8 out of 10 of the top electronics manufacturing companies and 3 of the top 4 engineering companies in the world as clients. It has offices in Brussels, California, London and New York, and over 70 employees across the globe.

**CORA SYSTEMS**

Cora Systems, headquartered in Carrick-on-Shannon, is a worldwide leader in providing enterprise project and portfolio management solutions to global organisations and government agencies, including the NHS in the UK, the HSE in Ireland, Boston Scientific and Allergan. Founder and CEO Philip Martin started the company in 1999, and now employs around 60 staff in Ireland, and further staff in offices in the United States and the UK.

**CORLYTICS**

Founded in 2013 by John Byrne, Corlytics is a world-leading provider of regulatory risk intelligence to enable organisations and financial institutions to take a data-driven approach to regulatory resource allocation. Corlytics automatically collates, categorises, interrogates and analyses regulatory notices from regulators across the globe, and launched its Regulatory Event Data (RED) app in November 2018.

**CORVIL**

Corvil, a Dublin-based network data analytics company, won the “best financial transaction security platform” prize in the FinTech Breakthrough Awards 2017. With its headquarters in Dublin, the company also has offices in New York, Tokyo, London, Hong Kong, Krakow, and Toronto. Founded by the late Prof John Lewis and three Trinity College Dublin post-graduate students in 2000, its products are used by banks, exchanges, market makers and service providers including Morgan Stanley, Nomura, Commerzbank, Thomson Reuters, the Nasdaq, the London, Moscow and New York Stock exchanges, and Deutsche Börse.

**CPL**

Cpl is a global Irish company founded by Anne Heraty, CEO. It is a recognised leader in temporary and permanent recruitment and has a US office in Boston, Massachusetts. In the US, Cpl caters to Irish corporates based in the US and local US companies. Cpl work closely with US companies setting up European operations and actively supports the IDA in their marketing activities.
